It is a prefty eure aign of weithings which talse changes have to be made As to the New York uspaign, I see no reason now to change ny opinion from that which I expressed in an interview when 11 H was nomintrying by every means to impress upon Republicans in every St te and district, and the faithful performance of which and I do not see how it is possible for the Democrate to units on Mr. In I, and

I feel sure that we shall entry at least three districts in New York Cay and two in: Brooklyn 1 consider these brooklyn seats as almost syre Than there are several other filles that furnishing us with good hop's of succass. This is the condition generally

I now consider to be ug surely Pepublican as Penusylvania. There are there tickets in the field and there will cortainly be a great gain in the Congressional delegation as well as a lice jublican successor to Senator Martin im for vinced that there will be a Republtean gam also in West Virginia There s no way now to predict their result of the fight for the Legislature, but I belave that we have a good thance there Scoator Camden's seat is in the belance and I feel that we are ma fair way to defeat him I do not now think, however, that we can hope to gabt a majority in the Schate this year. The Democrats have twenty-nine holdovers, while we have but twenty-one, and I shall be quite satisfied to hold our own. That I am convinced we can do busides making some gains such as the New Jersey and the Kansas scats. There may be others What we hope to do is to keep all we have got, gain one or two in; this election, and so be in shape to carry the Senate in 1896, when several scata now illied by Democrats who were elected from Republican States like Ohio by the wave of 1892 will become vacant. Our people can confidently continue to carry on the ame vigorous campaign until Novembe 5 that they have conducted for the last thirty days, add they may then count on securing a majority in the House from the country north of Mason and Dixon's

I believe that the discontent there ugainst Democratic miscule will more than offset the advances that the Populists may make in the South, I am in abandoning the campaign' in going any means. Indeed, I feel sure that I shall leave the committee in better hands than my own, for Mr. Apaley, who will take charge of the headquarters during my absence, bas been in touch and entirely familiar with the committee work during the entire season. He is, therefore, theroughly conversant with the work, and is an abl and successful business man. Sp I look for new force being put into the campaing, and I think his services will be of great advantage to the party

If one may tairly judge from the frantic appeals of the Democratic Congressional Committee and its chief news-paper organ, about the only prospect, in their opinion, of obtaining a Democratic majority in the next House of Represen-tatives is based upon the hope of electing not less than twenty Congressmen from the State of New York. According to Chalman Faulkner, the Empire State is

the battle-ground, and, according to the New York Trace, there is grave danger that the Populists will hold the balance of power in the LiVih Congress, unless the city of Brooklyn returns us many Demogratic Representatives as it has in present Congress. Po be exact it was in January, 1875, when Sweet & komery moved from their store under what was then the Harriman House on Main street, their rimoval being a forced one as fire had swept through the Hatch House block the previous December The corner store now eccupied by Mr. Sweet was about two thirds its present size at that time. When one now contemplates the enlarged retail store and the five story building now devoted to the wholesale department one obtains some idea of the change in twenty years.
